## Capitaine Tasman V.152 Delay Schedule - Crane Breakdown

Dear Valued Customers.

Please be advised that we have had a technical issue on Capitaine Tasman 152 crane #1. This has caused a delay in cargo operations. In order to expedite delivery of cargo on board, and in order to rectify and protect the longer term schedule, we are required to OMIT Apia, Pago and Nuk on this voyage. After significant re-handling of cargo in Noumea, the vessel will complete operations in New Caledonia, Vanuatu and Fiji as planned, and then expedite a return to Melbourne to arrive as close as possible to her long term planned schedule.

Routing of cargo on or intended for the Capitaine Tasman 152.

- All inbound Apia, Pago and Nuk cargo will be discharged in Suva and transferred to the Forum Pacific V152.
- All outbound Apia, Pago and Nuk cargo booked on the Capitaine Tasman 152 for Australia will be transferred to the Forum Pacific 152.
- All Fiji outbound to Apia, Pago and Nuk will be transferred to the Forum Pacific 152
- All southbound cargo booked to Australia on the Capitaine Tasman will be loaded as planned.
